- ◆ Fuel Modification Zone Planning
- ◆ Open Space Management Plans
- ◆ Habitat Restoration/Mitigation Plans
- ◆ Invasive Plant Management Plans
- ◆ Landscape and Irrigation Installation
- ◆ Landscape and Irrigation Maintenance
- ◆ Groundskeeping
- ◆ Habitat Restoration Installation
- ◆ Invasive Plant Management
- ◆ Weed Abatement
- ◆ Wildlife Fuel Management
- ◆ GIS services

CLIENTS AND PROJECTS

Los Angeles Department of Water and Power, Hands-on Workshops — Wildscape assisted Carollo Engineers and the Green Gardening Group in renovating 27 homeowner landscapes across Los Angeles County. Wildscape removed sod from existing lawns, reconstructed the soil to encourage water capture, applied soil amendments, installed drip and low-flow irrigation, and planted native and drought tolerant vegetation.

U.S. Army Corps of Engineers, Landscape Groundskeeping — Wildscape conducted general landscape maintenance on approximately 2 acres for the Encino, California facility. We conducted lawn care, herbicide treatment of weeds, trimmings of trees, and shrubs.

U.S. Aviation Authority, Fencing Replacement — Wildscape removed and replaced chain-link fencing at the Los Angeles International Airport in a biologically sensitive area.

California Department of Motor Vehicles, Landscape Maintenance — Wildscape provided services for Ventura, Santa Barbara, and Newhall facilities. Wildscape was responsible for irrigation maintenance, lawn care, pruning, and weeding.

West Basin Municipal Water District, Ocean Friendly Garden Program Maintenance — Wildscape provided maintenance services for several drought tolerant demonstration gardens located in the West Basin 17-city service area. Each project site is unique and requires different types of maintenance including shrub pruning, ground cover trimming, weed control, mulch spreading, irrigation monitoring and debris removal.
